## Hospitality Rider

### DRESSING ROOM

Get Funked require a private, secure, clean and comfortable dressing room, with heating and/or air-conditioning (as deemed necessary for the time of year). The room should have 13amp mains power, a full length mirror and enough furniture for up to 15 people (band and crew) to be seated comfortably. Local toilet facilities are essential and shower facilities will be appreciated if available. Female performers will always appreciate a separate dressing room if possible.

When Get Funked travel long distances, their costumes, dresses, shirts and suits will benefit greatly by being freshened up. As such, a clothes rail, iron and ironing board will always be very much appreciated, if available.

The band's dressing room(s) must be available from initial arrival up until whatever time the band are expected to depart the venue. Individual keys for the dressing room should be provided where possible. If the room cannot be locked, security must be provided.

### CATERING

Get Funked require a hot, healthy, nutritious and substantial meal for all band a crew, at a pre-agreed time, no later than 90 minutes prior to their performance. When travelling and performing at back-to-back events, giving the band the right fuel is essential and will increase the quality and energy of their performance. We ask that the band are not given deep fried and fatty foods or lots of heavy carbs (potato, pasta, bread). Lasagna, chips and garlic bread is the last thing the band want to eat before jumping around on stage for 2 hours. **Salad, fruit, vegetables, rice, grilled meats and fish, beans, pulses etc.** are the food groups that will give the band the energy they require to perform at their best. Meals must be served at a table - The band will not eat with their hands standing up in the back of a catering tent.

**Please note:** dietary requirements are currently 1 x no nuts and 2 x vegetarian (this may change from time to time)

### DRESSING ROOM RIDER

The following beverages should be placed in the band's dressing room before they arrive:

- 28 x 330ml bottles of mineral water (still)
- 3 x cartons of good quality fruit juice (3 x 1tr)
- 2 x bottles of coke (2x 1tr)
- A selection of fruit and snacks (if possible)
- Continual or self service tea and fresh coffee
- A healthy supply of cups and glasses
- 28 x bottles of premium European lager
- 8 x bottles of assorted real ales
- 1 x 1 bottles of good quality red & white wine
- 1 x bottles of good quality dark rum
- 1 x bottles of good quality gin
- Tonic water / ginger beer

*Alcohol* is not a strict requirement at private or corporate events however the energy and dynamic of the band's performance always goes up a little when the band have relaxed with a couple of drinks. We leave this at the discretion of our clients.

### ON STAGE RIDER

Get Funked require that the following additional items are placed on stage in advance of their performance:

- 28 x plastic bottles of mineral water (still)
- 11 x clean hand towels

### PLEASE READ

- Any adjustments to this list must be agreed in advance with Martyn Strange two weeks prior to the show.  
**LEAVING IT UNTIL THE DAY OF THE SHOW IS NOT ACCEPTABLE.**
